PhD and Postdoc Retreat

Computer Science and Bioinformatics

March 30-31, 2016

Sandbjerg

Sandbjerg

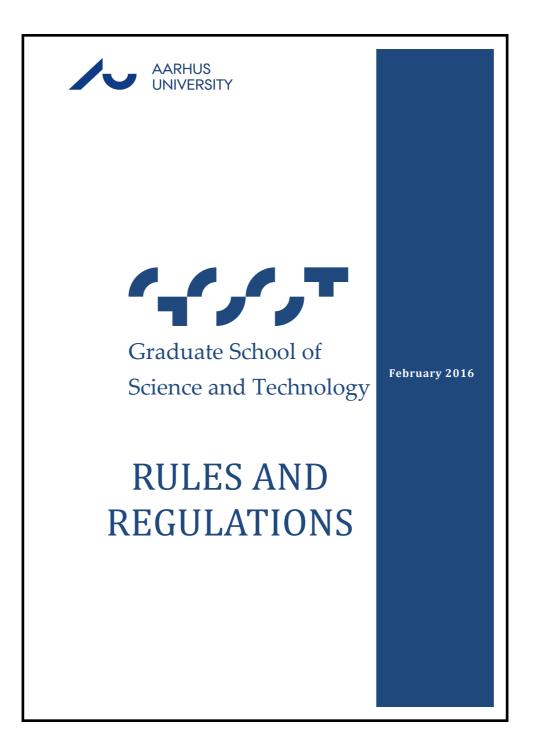

PhD and PostDoc retreat 2016

Wednesday 30 March	Thursday 31 March
	8:00-9:00 breakfast and check-out
8:15 departure from Åbogade	9:00-10:30 Introduction and poster session Brænderiet
	Postdocs : Evaluation of posters (Palæet) 10:30-11:30 PhDs : PhD group discussion and group
11:00 Registration at Sandbjerg	work (Stalden)
11:30-12:30 Introduction and news from PHD committee (Stalden)	11:30-12:30 Feedback on posters (Brænderiet)
12:30-13:30 Lunch	12:30-13:30 Lunch
12:20 16:20 Werkshan	13:30-14:30 BiRC : Group work (Stalden)
13:30-16:30 Workshop Entrepreneurship & Innovation	14:30-14:45 Round-off (Stalden)
– why the big hullabaloo? Stalden	14:45 Departure from Sandbjerg
16:30-17:30 Teambuilding Brænderiet	
17:30-18:30 Break	
18:30-01:00 Dinner (Bar closes at 1:00)	

News from Postdoc and PhD committees

- Members of the PhD Committee
 - Anders Møller (Chairman, CS)
 - Ira Assent (CS)
 - Peyman Afshani (CS)
 - Susanne Bødker (CS)
 - Christian Storm Pedersen (CS & BiRC)
 - Mikkel Heide Schierup (CS & BiRC)
 - Tobias Sonne (Student repr., CS)
 - Dan Søndergaard (Student repr., CS & BiRC)
 - Sofia Rasmussen (Administration)

GSST Rules and Regulations

http://phd.au.dk/gradschools/scienceandtechnology/rulesandregulations/

Charter

The PhD Committee at the Department of Computer Science coincides with the Computer Science programme committee of the Graduate School of Science and Technology (GSST). This committee is responsible for the PhD studies in Computer Science and Bioinformatics.

The aims of the committee are to:

- > ensure that we attract the top students to the PhD programme
- support our PhD students toward reaching their full potential during their studies in collaboration with their advisors
- reinforce the high reputation of our PhD programme in the research community both nationally and internationally
 - Mikkel Heide Schierup (CS & BIRC)
 - Tobias Sonne (Student repr., cs)
 - Dan Søndergaard (Student repr., CS & BiRC)
 - Sofia Rasmussen (Administration)

GSST Rules and Regulations

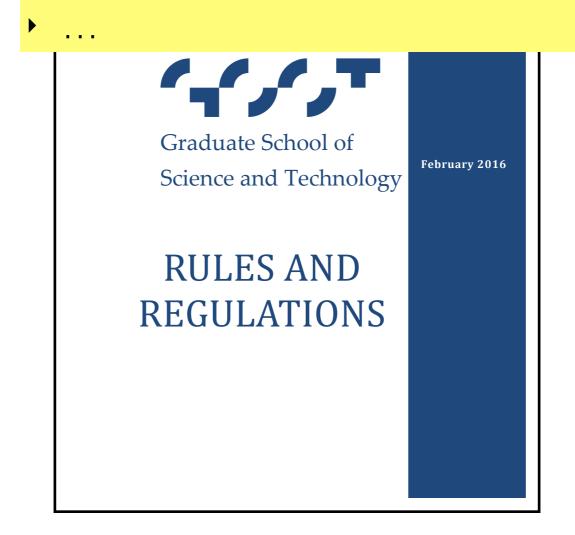

http://phd.au.dk/gradschools/scienceandtechnology/rulesandregulations/

Updated (March 4, 2016):

GSST F. New chapter about "code of conduct".

- Stating that the course "scientific teaching" is now mandatory and more info about courses in general.
- More info about teaching obligations and the possibilities of exemption.

Courses

- A PhD student must have 30 ECTS of PhD courses, and what remains of the Master's program, if enrolled before having a Master's degree.
 - Remaining Master's courses must (of course) be completed before the Qualification Exam (which is the Master's exam).
 - PhD courses should be completed before the Qualification Exam.

Courses

 A PhD student must have 30 ECTS of PhD courses, and what remains of the Master's program, if enrolled before having a Master's degree.

	_	
		Course work for PhD students can consist of, for example,
	 Remaining M completed b the Master's 	Transferable skills courses (common to all of GSST)
	the Master's	MSc courses
		Actual PhD courses
PhD courses Ad-hoc mini-courses (typically by guest professo		Ad-hoc mini-courses (typically by guest professors)
	Qualification	Summer schools
• S	So far : PhD coເ	"Journal clubs"
		The department strongly recommends to complete the course Introduction to Science Teaching as early as possible in your PhD programme. Please note that the course is mandatory for all PhD students accepted after October 1, 2015.

At most 10 ECTS can be covered by transferable skills courses, unless special agreements are made.

http://phd.au.dk/gradschools/scienceandtechnology/programmes/computerscience/courses/

Courses

- A PhD student must have 30 ECTS of PhD courses, and what remains of the Master's program, if enrolled before having a Master's degree.
 - Remaining Master's courses must (of course) be completed before the Qualification Exam (which is the Master's exam).

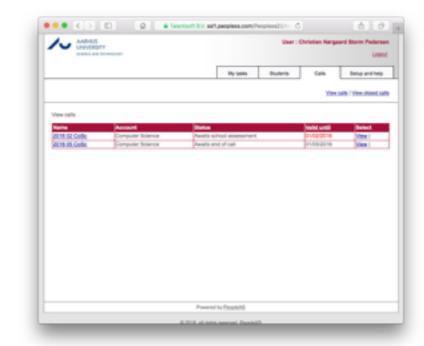

- From Fall 2016: A (more) clear separation between MSc and PhD courses with more activities targeted directly at PhD students. Still very flexible.
- Your input: Ideas for classes, activities and organisation.

Keeping track of progress

- Following ministerial rules, the PhD school must perform 'half year evaluations' of PhD students. This involves:
- Your initial PhD plan (document) and your ongoing updates.
- Your ongoing registration of activities in PhD planner (course work, teaching, conference participation, publications etc.).
- Your input is reviewed by your supervisor, the PhD committee, and the PhD school every half year.
- At CS: Discussed in your PhD Support Group.
- Your input: Ideas for improving this 'workflow', PhD Planner, PhD Support Groups etc.

Summary

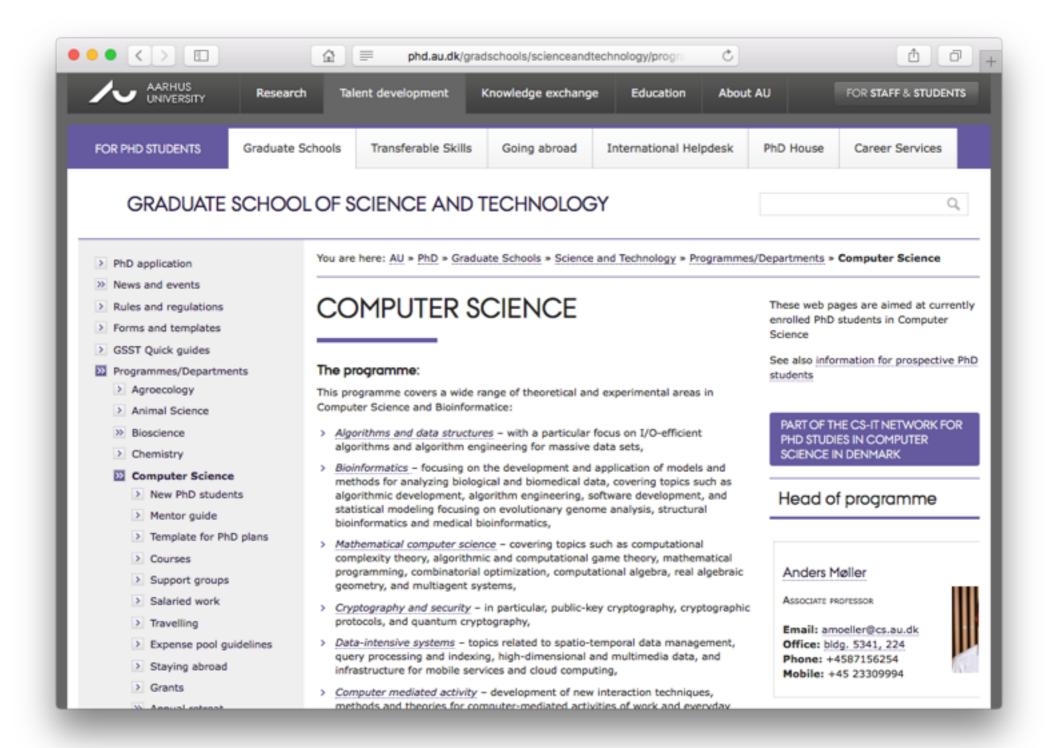

Anything else?

Summary

- Anything else?
- Tomorrow (1030-1130) we have time for further discussion. Think about:
 - New student representative(s) in the PhD committee
 - Ongoing 'PhD-activities', PhD lunches, PhD retreats, ...
 - PhD courses, ideas and organisation
 - Workflow for 'keeping track of activities', PhD Planner, ...
 - PhD Support Groups
